

Dear Hiring Team,

I am excited to apply for the Developer position at your company. As a recent graduate from Assam Down Town University with a Bachelor of Computer Applications (BCA), I achieved a CGPA of 8.25 while gaining practical experience of 11 months as a Full Stack Developer at 5TechG LAB LLP.

My education has equipped me with a strong foundation in various technologies, including React.js, Node.js, ExpressJS, and MongoDB. I have successfully completed several projects that showcase my ability to create user-friendly and efficient software solutions:

- **HR Management System (HRMS):** Developed a user-friendly UI for managing employee data, roles, attendance, and streamlining distributor and task management, along with handling inventory and financial tracking.
- **Ecommerce Management System:** Built a robust system to efficiently manage customers, process orders, handle distributors, and provide secure, role-based access for controlled operations.
- **Shock Absorber Calculation System:** Designed a solution that collects input parameters, identifies suitable shock absorbers, computes specifications, and recommends the best options.
- **Wedding Tailor Website:** Created a stylish React website featuring a homepage, service details, photo gallery, booking form, "About Us" section, and customer reviews.
- **Bank Website:** Developed a responsive and user-friendly site featuring an overview of services, detailed pages, new account form, customer support, branch locations, and secure account management.
- **VK Car Repo System:** Designed a platform to efficiently manage vehicle repossessions, coordinate with financial institutions, assign seizure tasks, maintain an inventory of repossessed vehicles, and provide reporting and notifications for streamlined operations.
- **Type Master:** Created a typing improvement platform that tracks progress, offers personalized exercises, provides real-time accuracy feedback, and generates performance reports.

I am particularly drawn to the company because it offers the opportunity to gain knowledge and experience, and it is also close to my hometown. I believe my skills and enthusiasm for technology align well with your team's goals, and I am eager to contribute to your success.

Thank you for considering my application. I look forward to the opportunity to discuss how I can be a valuable asset to your company.

Sincerely,

Sayan Sarkar
